MOHTASIN MEHERAB SIKDER

Dhaka, Bangladesh | +8801521332303 | rusho1152032@gmail.com | LinkedIn

EXPERIENCE

Lead Engineer **Mar 2026 – Present**

Samsung Electronics Dhaka, Bangladesh, On-site

- **Team Leadership**: Mentored a 4-engineer agile team, driving high-quality technical execution aligned with strategic business goals.
- **Agentic AI System**: Architected an autonomous AI orchestration layer to triage and analyze user feedback (VoCs), drastically reducing MTTR.
- **IoT & Mobile Automation**: Spearheaded a remote device-to-device test framework, eliminating physical hardware constraints and establishing CI guardrails for early anomaly detection.
- **AI Prototyping**: Led the technical discovery and engineering of Proof of Concepts (PoCs) for next-generation mobile AI features, delivering high-impact, showcase-ready prototypes.

Senior Software Engineer **Mar 2024 – Apr 2026**

Samsung Electronics Dhaka, Bangladesh, On-site

- **Technical Leadership & Architecture**: Acted as Tech Lead for device onboarding, designing system blueprints (PlantUML) and orchestrating a seamless 400+ file migration from ReactiveSwift to Combine.
- **IoT & BLE Engineering**: Engineered highly stable connection modules, achieving an *88%* success rate for **BLE Hubs** and *73%* for **hybrid Zigbee+BLE locks**.
- **Mentorship & Quality**: Standardized coding practices via rigorous reviews, mentored junior engineers, and resolved critical market VoCs through data-driven analysis.

Software Engineer **Jan 2022 – Feb 2024**

Samsung Electronics Dhaka, Bangladesh, On-site

- **Feature Development**: Spearheaded Test-Driven Development (TDD) for complex iOS and iPad layout features, ensuring high test coverage and rapid deployment cycles.
- **Protocol Optimization**: Owned local device communication modules, driving LAN success rates from 67% to 80% while maintaining 75% reliability for Zigbee and Z-Wave registrations.
- **Performance Engineering**: Diagnosed and resolved critical memory leaks and architectural bottlenecks to significantly boost application responsiveness.

EDUCATION

University of Rajshahi **Feb 2016 – Jan 2021**

Bachelor of Science - BS, Computer Science Grade: 3.23 out of 4

SKILLS

Languages: Swift, Python

iOS Development: SwiftUI, UIKit, ReactiveSwift, Combine, Swift 6 concurrency

Networking & IoT: BLE, mDNS, Zigbee, Z-Wave, LAN, Matter, SoftAP

Architecture: MVVM-C, VIPER, SMA, Redux, DataLayer,

Others: Agentic AI, MCP, Prompt engineering, Coding agent workflow and rule

ACHIEVEMENTS & ACTIVITIES

- Awarded with **Icon of the month** in September, 2022 for reducing server calls and reusable code design improving user experience.
- Passed Advanced and professional coding test.
- Conceptualized a novel IoT architecture that successfully passed internal evaluation and was awarded a **top-tier A1 patent** grading for high-value intellectual property.
- **On-site collaboration:** Visited Republic of Korea 3 times (2022, 2025, 2026)
